### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: Application serial no. 10/537,766 is being allowed for the reasons of record in the Office action mailed on September 19, 2008, and since none of the prior art of record teaches or fairly suggests a method for quantifying small particle LDL, defined in the specification as lipoprotein smaller in particle size but higher in density than standard LDL, comprising the steps of precipitating lipoproteins other than small particle LDL and HDL from a test sample by adding a separation agent comprising a polyanion, a divalent cation and a monovalent cation, wherein the monovalent cation is at a final concentration of 50 mmol/L or less, eliminating HDL by treating the test sample with cholesterol esterase and cholesterol oxidase in the presence of polyalkylene oxide, and quantifying the small particle LDL leftover in the sample by measuring the amount of LDL. In addition, none of the prior art of record teaches or fairly suggests a method for separating small particle LDL from a test sample comprising precipitating LDLs other than small particle LDL by adding a separation agent comprising a monovalent cation at a final concentration of 50 mmol/L or less to the test sample.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
